

International Scholarship for Change

Your gift has been busy even during national lockdowns

Dear Friends and Family,

Since COVID-19 many people we support found themselves stuck at home and traditional training programs we supported had to be cancelled. Working in partnership with our trusted partners, evolve abroad, we were excited to learn of a very special virtual internship for national and international students.

With your donations we were able to assist 6 international ambassadors to join a virtual sustainable development internship for 4 weeks that was accredited and included a certification from the University of Columbia in the Age of Sustainable Development. All participants get a mentor and work on a minimum of 2 live projects for NGOs and at the end of the project they are equipped with a 3-5 year career development plan. This project has already shown great results and we see it being a critical part of helping our passionate ambassador learn and become equipped with the skills to tackle the global issues while we continue to face international travel restrictions.

Our fund is almost empty but after watching how this virtual experience is changing lives we see how valuable and important gifts to this project really are and I would like to take this opportunity to ask you to please help us by sharing this project with other like minded people so together we can help people around the world break down the barriers and learn to become ambassadors for change.

We are in a world today where many communities and projects are in a critical position and this might be the last chance we have to make a difference for future generations. A donation no matter how big or small will go a long way to helping us to change.

Thank you for being part of the solution to end all global issues by 2030.
